

Recycled Glass Rock

We have a large selection of recycled glass rock products available in a variety sizes and colors. For use in fire pits, landscape beds, gabion baskets, and flower beds there is no limit to the creative options available.

Because it's 100% recycled, the glass is sustainable and eco-friendly. And because it's colorful, the glass will allow your project to take on a striking life of its own.

A 50 lb bag of landscape glass rock typically covers 7 square feet with 1" depth. However, we recommend 2" depth coverage or 3.5 square feet per 50 lb bag, or 14 lbs per square foot. When calculating fill amount for gabion baskets using 4-6" glass rock we generally recommend using a ratio of 90 lbs per cubic foot.

Please note that the color can appear darker in larger pieces and that coloring can change slightly from production lot to production lot so if you are unsure please request a sample.

Solid Color Landscape Glass Rock

Our solid color landscape glass rocks are available in a variety of sizes and colors and are generally darker and less opaque than our crystal color options.

Crystal Color Landscape Glass Rock

Our crystal color landscape glass rocks are available in a variety of sizes and colors and are generally lighter and more opaque than our solid color options.

Mixed Color Landscape Glass Rock

Our mixed color landscape glass rocks are available in a variety of sizes and color mixes and are a great way to add in a mix of vibrant colors to your landscape project.

Gabion Glass Rock

Our gabion glass rocks are available in a variety of sizes and colors and are a great way to add in a mix of vibrant colors to your gabion fill project.

When calculating fill amount for gabion baskets using 4-6" glass rock we generally recommend using a ratio of 90 lbs per cubic foot.

Terrazzo Glass Rock

The ancient flooring technique of terrazzo dates back centuries to the time of the Renaissance. For centuries, artisans have labored with mineral aggregates to create stunning works of art that. Our recycled glass products offer a modern addition to this age old trade. The unique effect of Terrazzo Glass can transform an environmentally sustainable floor into a stunning work of art and can even increase the durability of a flooring installation. With more than 36 colors and sizes in stock, the options are truly limitless.

Specialty Glass Rock
